When international, state, county, and/or MCD/CCD boundaries coincide, the map shows the boundary symbol for only the highest ranking of these boundaries.

Geographic area names are followed by either their FIPS or census code.

1. A "1" following an MCD name denotes a false MCD. A "1" following a place name indicates that a false MCD exists with the same name and FIPS code as the place, the false MCD label is not shown.

2. Place label color corresponds to the place ID order.

3. Census tracts are identified by an up to four-digit integer number and may have an optional two-digit suffix for example 12 or 1201. The census tract index consists of six digits with an implied decimal between the fourth and fifth digit corresponding to the tract's census tract number, but with leading zeros, and trailing zeros for census tracts without a suffix. The tract number examples above would have values of 001000 and 120100, respectively.

Due to space limitations, some road names, along with other features and geographic names on the map, may not be shown.

All legal boundaries and names are as of January 1, 2020. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only. Their depiction and designation for statistical purposes does not constitute an Administration of jurisdictional authority or rights of ownership or entitlement.
